materials

OPASTCO Roundtable magazine is produced direct to plate using digital advertising files. To send film for dotcopy processing into a digital file, please contact the advertising representative.

Digital files are required in one of the two following formats:

- ▶ A press-optimized, 300 dpi, Adobe Acrobat 5 or later PDF with all fonts and CMYK images embedded.
- ▶ An Illustrator or Freehand eps file with embedded fonts and images.

For information on proper creation of digital files, please contact the advertising representative.

Digital files that do not match the above criteria, and require re-working or piecing together will cause a \$200 production fee to be charged.

A color proof generated from the submitted electronic file is required. Images must be CMYK. RGB images that need to be converted to CMYK will not match your proof. **The publisher is not responsible for any advertisements submitted without an accurate color proof.**

Composition costs for typesetting, corrections, and alterations (including coupon code changes) will be charged to the advertiser or agency at cost plus 35 percent. Requests to alter existing advertisements must be submitted in writing no later than the space reservation closing date.

inserts

Consult with the advertising representative for mechanical specifications for supplied inserts.

return policy

Advertising materials will be returned on written request. Materials will be kept for 12 months after publication; then they will be discarded.

shipping instructions

Contact the advertising representative for electronic delivery of digital files. Advertising materials should be shipped to:
