

Call For Volunteers

Serve on an OPASTCO Committee

OPASTCO is especially proud of being a member-run organization. The primary forum for member participation is the Association's committee structure. OPASTCO has many active committees that provide its board of directors with the basis for OPASTCO's policy decisions and activity plans. These committees are of vital importance to OPASTCO, the telecommunications industry, and to small telephone companies. Individuals who serve on the committees gain an increased knowledge of the industry; and companies with employees on OPASTCO committees gain a more valuable employee as well as become a more informed company.

Please take a moment to review the following list of OPASTCO committees, consider your area of interest, and volunteer to serve today. Please check the box beside any committee(s) on which you would be interested in serving. (Committee appointments are made by the incoming chairman based on committee needs and space availability.)
